

## THUSNESS

The Absolute creates from the Void, generating an infinite series of Universes that are **CONDITIONED** in all their phenomena, remaining in Its State of “Immutable Permanence and Impermanence.” The Absolute, Infinite Reality, creates the Space in which the consciousness of Being can exist in apparent time. In the same sentient being, the clear sensation (thought, or more subtle effect) of being a terminal made conscious by creation itself. We exist? Why? **BECAUSE THIS IS THE WAY** the Absolute **DESIRED**. What do we seek, if not **THE ABSOLUTE**? The Non-Illusory Nature lies in the Absolute, therefore the realization of an “apparent” path, which **SEEMS** the end of every Path, identity, search. This is the the way to conceive of Thusness, “Its “**IMMUTABLE NON-Self**” where sentient beings lose themselves, lose their form, their sensation of having been Created, and achieve stillness in the tempestuous sea of life. All the Laws in their purity – the interacting laws – are written in the Empty Space of Reality. This is the nature of Thusness.

As Thusness is the Absolute Truth (neither the first, nor the last), it resides where the comprehension of what lies Beyond... (to the seeker of spiritual realization) realizes Emptiness through wisdom. Each definition of Thusness is like the pole of a fence, which diminishes its enormous Value.
